

RELATIVE OF NOBLE, SLAIN REALTOR, THREATENED TO KILL HIM

SOMERVILLE'S MURDER MYSTERY TOLD IN PICTURES

MOTIVE FOR CRIME IS FOUND

Continued from First Page.

They were inflamed by the same burglar, as regarded as out of danger. He is at the Massachusetts General Hospital.

FOUGHT NERVE

At the Somerville Hospital, where he was taken for an X-ray, the young physician objected strenuously. He wanted to diagnose his own injuries and ailments.

Two nurses held him and eventually, to an X-ray picture was made. The police have been unable to find out at what hour the Thieria retired the night of the murder.

Thieria's sister was to be questioned further this afternoon. Although they don't say so in many words, the police have definitely abandoned the burglary theory. They are convinced that wherever did the shooting did not run from the house when it was accomplished.

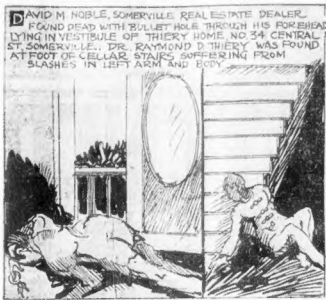

In perfecting a case which will be followed by an arrest, they are hampered by their failure to find the revolver with which the shooting was done.

WOMEN WITNESSES

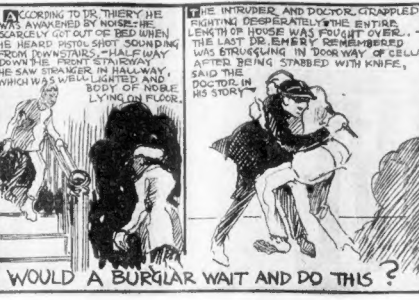

A knife belonging to the doctor, one blade of which was open, has been found by the police. The knife was found in the room of the Thieria's home, near where the half-conscious form of the physician was discovered by the father, William O. Thieria, a few minutes after the shooting.

The police are convinced that Noble was not murdered by a burglar—the explanation of the crime given by Dr. Thieria.

Convinced that there was no burglar in the case, the authorities are now bending every effort toward finding the revolver with which the

DAVID M. NOBLE, SOMERVILLE REAL ESTATE DEALER, FOUND DEAD WITH BULLET WOUND THROUGH HIS FOREHEAD Lying in Central Office Thieria House, No. 24 Central St. Somerville. Dr. Raymond O. Thieria was found at foot of cellar stairs, suffering from a bullet wound in the left arm and body.

ACCORDING TO DR. THIERIA HE WAS AWAKENED BY A BULLET WOUND THROUGH HIS FOREHEAD. HE HEARD A SHOT SOUNDING DOWN THE STAIRS, AND HE HEARD THE SOUND OF A BULLET HITTING A WALL. HE HEARD THE SOUND OF A BULLET HITTING A WALL. HE HEARD THE SOUND OF A BULLET HITTING A WALL.

THE INTERIOR, AND DOCTOR GRAPPLING WITH A BULLET WOUND THROUGH HIS FOREHEAD. THE LAST DR. EMERY REMEMBERED WAS STRUGGLING IN DOORWAY, AFTER BEING STRUCK WITH KNIFE, SAID DR. THIERIA. DOCTOR IN HIS STORY.

real estate man was slain. The grounds around the Thieria home, the sad father and even the entire case in the neighborhood have been searched without success.

Dr. Thieria, who according to his own story was attacked and stabbed by the intruder who slew his brother-in-law, is improving at the hospital, following an operation for the abdominal condition set up by the cut wounds.

It is the most significant fact for the police is the statement of the women living in the house adjoining the Thieria property.

"I heard the shot while seated on my front porch," Mrs. Emery told State Officers John F. Stokes and Joseph Ferreri yesterday morning. "I immediately stepped to the railing at the left, which location marks a view of the Thieria's back yard. I stood there for a minute or so. I saw nothing and heard nothing. You can imagine my surprise later when a roomer in the house told me that Mr. Noble had been murdered."

HEARD NO CRIES

"The thing that impresses me more than anything I have heard regarding the belief that there were burglars in the house is the fact

that there were absolutely no cries for help from Dr. Thieria's home. The night was a quiet one and our neighbors in the vicinity will attest that.

Medical Examiner George G. Magrath of Suffolk County has been called into consultation by Medical Examiner Thomas Thieria of Somerville. One of the first calls Dr. Magrath did after being called into the case was to interview Dr. Thieria in the hospital.

At the conclusion of the examination Dr. Magrath refused to make any statement except to admit that the wounds of Dr. Thieria were of such a nature that they might have been self-inflicted.

The older Thieria, who was in bed at the time of the shooting and who was aroused by the shot and went to the first floor to find his son in a semi-conscious condition at the foot of the cellar stairs, is heartbroken over the affair.

"If my son dies it will be the last straw. I will want to die myself," the aged father of Dr. Thieria declared to a reporter last night. "I have just lost my daughter, my son-in-law has been murdered and now my son is dying. If God takes him I will have little to live for."

"I promise you to spare no effort to find this end and I am equally sure that my effort will be backed up by yours."

REFUSE TO ALLOW C. M. T. BOYS TO MARCH

Camp Devens, Aug. 11.—A request from about 400 fourth year students of the Citizens Military Training Camp to march in the annual parade of the Grand Army of the Republic in Boston tomorrow was refused today by Brigadier General Malvern B. Barnum. The students had suggested that their participation might show the G. A. R. of a superior National Defense Day, September 12.

The suggestion of transporting the students to Boston and the resultant break in their course of training were the reasons given by the commandant for the refusal.

U. S. Exports Exceed Imports for 1924 by \$231,000,000

Washington, Aug. 11. (Universal)—American exports exceeded imports by \$231,000,000 the first six months of 1924, according to figures made public by the Department of Commerce.

In the corresponding period of 1923 imports exceeded exports by \$182,000,000.

It was explained the increase was necessarily accompanied by correspondingly great changes in the value of the services and credits that make up the "invisible" trade between nations.

The chief change in invisible items was a great increase in foreign securities floating in the United States. Another change was a decline each in the amount of United States currency exported and of American investments purchased by foreigners.

Some Are Ruined

A busy little organizer brought the message of the Klan. A Klavern was formed. And today that community is changed.

In Klavern meetings in this city I have heard Catholic merchants discussed and plans laid by boycott them.

I know of small business men who have been ruined by such boycott. Some of them never suspect of what it was all about.

Not all of the victims have been Catholics or Jews. Klansmen are often bigoted against every other race and religion. They have too much religion to join the order.

One peculiar circumstance in this connection is that Irish Catholics, usually quick-witted enough, often do not recognize what is being done to them.

Case of Dog Eat Dog

That is one ugly aspect of the situation. What is done is done in secrecy. Without seeming to violate his oath, a merchant who is a member of the Klan can direct attention to a Catholic in the same line of business and cut into his trade behind the shelter of the hood and robe.

In the meantime, hundreds of Catholics probably are dealing with the Klansmen, having no idea of the affiliations.

Some times, I suppose, these Catholics will become aware of the plot against their property and retaliate. That is the logical outcome of the Klan philosophy.

Every religion against every other. Every race against every other. Every class against every other. Eventually every man against every man.

For the Klux Klan is really not for anything. It is against things and it will finally break up when hatred of its members can no longer be satisfied by assaults on outsiders and turn inward upon themselves.

Of course, some Klansmen in business benefit immediately and directly by the formation of a Klavern.

WORLD FLIGHT IS VIRTUALLY ASSURED

Cruiser Raleigh Off Coast of Greenland, However, Finds Fog and Ice Hummocks.

Reykjavik, Iceland, Aug. 11. (AP)—There is no question of calling off the American army world flight because of ice conditions around the shore of Greenland, according to an official statement issued on board the cruiser Raleigh, flagship of the commanding squadron.

In the opinion of Rear Admiral Marston, commander of the squadron, the flight will be completed successfully, barring possible accidents or unforeseen adverse weather.

The United States cruiser left Iceland, exploring the east coast of Greenland, today reported to Rear Admiral Marston she was in danger for ninety miles east-northeast of Annapolis, and that she had encountered many floating ice hummocks.

While the vessel was attempting to gain the sea clear of ice, a hummock touched its slightly damaged starboard forward propeller.

The vessel was faced with three possibilities in making their next stop. First, the Raleigh, by means of its small tender, which is a safe landing haven for them on the Greenland coast, second, they may try to Annapolis harbor, which is free of ice, provided the Raleigh's propeller can take enough fuel to provide for the next leg, and third, they may attempt a non-stop flight from this port to Bristol, on the western coast of Greenland or to a base near Cape Farewell, on the southern tip.

The last-named project would entail a flight of 720 miles, necessitating the hazardous task of landing at sea to refuel from the Raleigh.

BOSTON STAYS AT EASTPORT TUNING UP

Eastport, Me., Aug. 11.—The airplane Boston 11, forced to turn back by fog and rain squalls to seek shelter here yesterday on its flight from Virginia to Detroit, N. S., as relief plane for Lieutenant Leigh Wade, will remain here today. Tuning up and other work was being done at the smooth beach at Broad Cove, where she should have a safe berth. Slight damage to a piston, causing it to leak, was repaired.

The plane probably will resume the flight tomorrow.

500 CASES OF RUM, 6 MEN, SEIZED IN R. I.

Providence, Aug. 11.—Six men arrested today in one of the largest liquor hauls ever made in this State were to be arraigned immediately.

Prohibition agents surprised the bootleggers as they were transferring 500 cases of whiskey from a boat to seven waiting trucks. The trucks and boat were seized.

The combined value of the liquor, the boat and motor vehicles is approximately \$40,000.

The police, acting upon information supplied by the night watchman at a lumber company, turned everything over to Federal authorities. The men arrested were all armed.

It is believed the motor boat got its cargo from a larger run running vessel, possibly off Block Island.

UNCLE IDENTIFIES BODY OF DROWNED NEPHEW

A body found floating in the Charles River, near the Barker-Karpis street landing, was that of Raffael Vecchia, forty-nine years old, a leather worker. An uncle of the man, Michael DeAlger, of No. 1 Noyes place, Boston, identified the body as that of his nephew.

They measure candidates when they are being initiated and nightly thereafter the klansmen impress it upon the new member that he should fit himself out with Klan regalia.

The ordinary price for an outfit is \$450, and the talors don't make a great deal on an individual sale, but they make enough to wax prosperous if the supply of new members keeps up.

Most of the klansmen disputes which from time to time threaten the Klan with disruption in various parts of the country arise from business jealousy.

"I am being followed by fellow-Klansmen" is a complaint not infrequently heard outside the klaverns.

Young doctors, lawyers, barbers, plumbers, and merchants are eager to join in some sections.

(Tomorrow I plan to speak of some of the tales and myths which help keep the Klan alive. I shall explain why a Klansman does not like to be called "Klan" and the Klan story that Massachusetts armories are in the custody of Catholics; and kindred matters.)

LYNCHING FEARED IN CHASE FOR PRISONER

Vicksburg, Miss., Aug. 11.—A posse of heavily-armed citizens sped out of Vicksburg today in pursuit of a police car carrying Sam Jenkins, negro charged with murder, to Jackson for safe keeping. Local authorities said they fear a lynching will result if the crowd overtakes the prisoner.

By C. F. BIRTELLI

Desauville, Aug. 11.—Pearl White, who has quit the Duke de Valombrosa for the Marquis de La Palaina, young, handsome and wealthy, has just had an exciting experience.

Pearl is said to have taken baths to give herself an appearance of violent sunburn. After she had left dinner guests waiting more than an hour word finally came that she had made a too strong mixture of henna and as a result came out of her bath a crimson color.

Two maids scrubbed her vainly for an hour, and finally Pearl went

Who Is Greater Boston's Most Charming Girl?

SOUGHT AS QUEEN OF CLUB

American Will Give Girl Selected Free Trip to Atlantic City for Beauty Competition

Who is Greater Boston's MOST CHARMING girl? The Boston American wants to know. It asks every reader to aid in the quest.

When it finds the most fascinating young woman in Boston or vicinity it will crown her "Queen of the Hub," and, as "Miss Boston," she will enjoy a trip to Atlantic City for one week during the Atlantic City pageant which begins September 2.

The Boston American will pay all the expenses of the winner and also those of her mother or any other suitable chaperon of her own selection.

The girl who is chosen as "Miss Boston" will also have a chance to obtain a \$10,000 job in the movies. She will have an opportunity to win a \$5,000 gold trophy and last, but by no means least, she will have an equal opportunity with girls from 100 other cities to win the coveted honor of being picked as the most beautiful girl in the United States. This will be one of the features of the Atlantic City pageant.

Every girl or woman between the ages of 18 and 35, inclusive, with the exception of professional models or actresses may enter this contest. There is no obligation of any kind to the offer. Every girl or woman, whether wealthy or poor has an equal opportunity. The factory girl has as much chance to win as the Black Box society woman who drives her own limousine.

The only requirement is to clip the coupon from the Boston American and mail with a photograph to the "Charming Girl" Editor of this newspaper. Then sit back and await the award of the eminent judges who will choose the winner.

A. S. ANDERSON GORED TO DEATH BY MAD BULL

Herman A. MacDonald, secretary to Governor Cox, won't be the third to light a cigarette from the same match. The reason? "Just a hunch," he says.

Governor Cox says golf is his pet lark. "I'll never be able to play it," he complained.

"Well, if the Governor said that," started Secretary of State Fred Cook, "then all I have to say is that he is my lark for he lost me."

Capt. George A. Parker of the State Patrol pleads guilty to two pet larks.

The first of these is a black cat. "While I can't remember ever having had luck which could be laid directly to this cat, nevertheless one always gets a start out of his skin when it crosses my path," he admitted.

The captain absolutely refuses to be the third to light his cigarette from the same match.

"This is an old superstition," he explained.

Have you a pet superstition? If so, write the Superstition Editor about it.

LOVE MAKES FUGITIVE GIVE UP

Gill, One of Six Who Escaped From Courthouse, Surrenders.

Love for his wife and a desire to see her safely in a good hospital caused him to escape from the Suffolk County Courthouse a week ago.

That was the explanation offered today by Herbert Gill when he returned to the courthouse and surrendered to the authorities.

It was one of six men who escaped through the skylight of the courthouse in Somerset street.

After District Attorney O'Brien had talked with Gill, he said he was satisfied Gill was telling the truth. Gill was under sentence of a year at Reformatory when he ran away. He began serving that sentence today.

Asked how the men got away he said they went through the skylight and over the roof to the roof of the 60 Colony Trust Company, making a drop of twenty feet without mishap.

Then they went down a fire escape through several streets and separated. The returned prisoner said he did not know the other five.

HOW TO KEEP WELL

By Dr. F. X. Mahoney

HEART disease causes more deaths annually in the United States than tuberculosis and cancer.
It is more than three times as common as cancer, and it is the leading cause of death among the people of this country.
The heart is a muscular organ, and it is the pump that keeps the blood circulating through the body. It is the most important organ in the body, and it is the one that is most often neglected.

Besides sending their men, boys and girls out to make beach safety, the Boston American has succeeded in obtaining more protection at the beaches in Boston proper.
At South Boston, the city has no only lifeguards, but also lifeguards who have been swimming to dangerous places but have been clean up the beach around the beach.

Those dissatisfied Democratic voters.
DISEASE is man of earth's mystery. And most mysterious is the trouble that nature takes to protect disease germs against their enemies, including man.
For instance the tubercular bacillus, which kills millions, lives encased in "a heavy capsule of fat," which gives it elasticity and protects it from its enemies in our blood.
SIR LEONARD ROGERS, who has specialized in fighting leprosy, noticed the resemblance between the germs of leprosy and of tuberculosis, and tried on his consumptive patients injections of "sodium mordenate" that worked well in leprosy. It is the salt obtained from the body of codfish, and has shown extraordinary results in leprosy and tuberculosis.
SIR LEONARD predicts "there will be no more tuberculosis in twenty-five years." He may be too optimistic, but man is slowly conquering all diseases, and tuberculosis and epilepsy will yield as others have yielded.

HOW CARELESS JOY RIDERS, FOOLS AND DRUNKARDS MEET THEIR DOOM

Truly the hand of death is ever ready to take in the wheelcases. The sad part of it is that too often it is the innocent bystander that suffers.
A scream of riotous laughter, the noise of a speeding auto, then a shriek of apprehension, a grinding of brakes, a crash with its attendant misdeeds of broken glass, bodies and objects hurled into the air. Thus ended the joy ride.
Another auto accident reported and forgotten too soon, and the heedless continue to risk their necks and endanger the lives of others.
